### Crossover (4-Way and 6-Way) Valves (40 Series)

#### Features

- Capsule packing allows crossover of two or three streams.
- Machined stops provide positive port positioning.
  - Stop plate material: aluminum/ASTM B209 or B211.

### **Pressure-Temperature Ratings**

| Valve<br>Series | Temperature<br>°F (°C)                    | Working Pressure<br>psig (bar) |
|-----------------|---|--------------------------------|
| 43Y (4-way)     | PTFE packing:<br>50 to 150 (10 to 65)     | 2500 (172)                     |
| 45Y (4-way)     | Live-loaded PFA or                        | 1500 (103)                     |
| 43Y6 (6-way)    | UHWMPE packing:<br>-65 to 150 (-53 to 65) | 500 (34.4)                     |

Pressure ratings for valves with Swagelok tube fitting ends may be lower due to the tubing pressure rating. See Swagelok *Tubing Data*, MS-01-107.

### **Ordering Information and Dimensions**

Dimensions are for reference only and are subject to change. Dimensions shown with Swagelok tube fitting nuts finger-tight.

To order, add a body material designator to a 40 series basic ordering number.

| Material  | Designator |
|-----------|------------|
| 316 SS    | SS         |
| Alloy 400 | М          |
| Brass     | В          |

Example: SS-43YFS1

40T and 40E Series Valves

Insert a seat packing material designator.

| Material | Valve<br>Series | Designator |
|----------|-----------------|------------|
| PFA      | 43, 45          | Т          |
| UHMWPE   | 43              | E          |
|          |                 |            |

Example: SS-43YTFS1

4-Way Valve

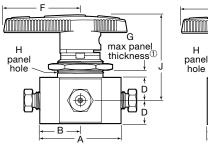

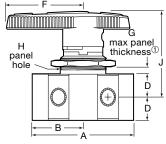

6-Way Valve

4-Way Valve

① 1/8 in. (3.2 mm) minimum panel thickness.

### **Testing**

Every 40G series and 40 series ball valve is factory tested with nitrogen at 1000 psig (69 bar) or at its maximum rated pressure if less than 1000 psig (69 bar). Seat tests have a maximum allowable leak rate of 0.1 std cm<sup>3</sup>/min.

### **Cleaning and Packaging**

All 40G series and 40 series valves are cleaned in accordance with Swagelok *Standard Cleaning and Packaging* (SC-10), MS-06-62.

Special cleaning and packaging in accordance with Swagelok *Special Cleaning and Packaging (SC-11),* MS-06-63, to ensure compliance with product cleanliness requirements stated in ASTM G93 Level C, is available as an option. See **Process Options,** page 23.

### **Handle Options**

### **Factory-Assembled Handles**

### Nylon Directional

| -  |                 |         |
|--|-----------------|---------|
| Black is<br>standard. For<br>other colors, add<br>a handle color<br>designator to the<br>valve ordering<br>number. | Handle<br>Color | Designa |
|  | Blue            | -BL     |
|  | Green           | -GR     |
|  | Orange          | -OG     |
|  | Red             | -RD     |
| Examples:  | Yellow          | -YW     |
| SS 42CS4 DI  |                 |         |

SS-43GS4-BL B-43S4-BL

### Nylon Oval

Add -K to the valve ordering number.

Examples: SS-43GS4-K B-43S4-K

#### Metal

Ideal for continuous elevated ambient temperatures

Stainless Steel Directional (40G Series)

Add -SHD to the valve ordering number.

Example: SS-43GS4-SHD

### 316 Stainless Steel Bar (40 Series)

Add -SH to the valve ordering number.

Examples: SS-44S6-SH B-43S4-SH

#### Aluminum Bar (40 Series)

Add -BKB to the valve ordering number.

Examples: SS-44S6-BKB B-43S4-BKB

### No Handle

Add -NH to the valve ordering number.

Example: SS-43GS4-NH B-43S4-NH

See page 21 for 40G series valves with no handle and no handle stop, typically specified for valves to be field assembled to pneumatic actuators.

### Handle Kits for Field Assembly

Kits include handle and set screw.

① X designates switching (3-way) valve; Y designates crossover (4-way) valve; Z designates switching (5-way) valve.

2 Ordering number specifies a black handle. For another color, replace -BK with a handle color designator from the table above. Example: BZ-5K-42-BL

③ Nylon oval handles are only available factory assembled on 40 series valves.

④ Handle kits for 40GX series 3-way valves with L or H flow paths also require a powdered metal 300 series SS stop insert, which can be ordered separately. Use ordering numbers: SS-5SI-42G for 41GX and 42GX series valves; and SS-5SI-43G for 43GX series valves.

(5) To order handle kits for 40X series 3-way valves with L or H flow paths, contact your authorized Swagelok sales and service representative.

### Locking Brackets (41G/41, 42G/42, and 43G/43 Series)

- Allows lockout of 2-way, straightpattern valves with directional handles in the open or closed position with a standard lock.
- Additional small-diameter hole can be used to tether locking mechanism to bracket or attach ID tag.
- Available on 43G/43 series valves with Swagelok end connection sizes up to 3/8 in. and 10 mm.
- Brackets cannot be used on valves with integral VCO and VCR fitting end connections or with panel mounting.

To order the locking bracket factoryassembled on a valve, add -LH to the valve ordering number.

Example: SS-42GS4-LH

To order the locking bracket for field assembly, use kit ordering numbers: SS-51K-41G-LH for 41G/41 and 42G/42 series valves; SS-51K-43G-LH for 43G/43 series valves

### **Handle Options**

#### Latch-Lock Handles (43G Series; 43, 44, 45 Series)

- Lock on-off valves open and closed or closed only
- Lock switching valves at each port, (including center-off position on 3-way model)
- Lock crossover valves in both positions
- Confirm handle position with positive detent
- Assist compliance with lockout/ tagout programs
- Fit padlocks with 3/16 to 5/16 in.
  (4.8 to 7.9 mm) shackle diameters.

### ▲ Caution:

These handles are designed to prevent unintentional valve operation. They are not tamper resistant and can be removed, even when locked.

#### **Ordering Information**

#### **Factory Assembled**

- Select a 43G, 43, 44, or 45 series valve ordering number.
   Example: SS-43GS4
- To order a valve with a black latchlock handle, add a handle designator.
   Example: SS-43GS4-LL
- 3. To order a handle color other than black, add a handle color designator to the valve ordering number, keeping the handle and color designators in *alphabetical* order.

Examples: SS-43GS4-BL-LL SS-43GS4-LL-RD

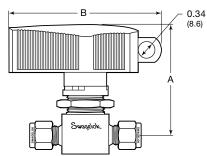

43G/43 series directional handle shown; 44 and 45 series handles are oval.

#### Materials of Construction

| Component                                       | Material                        |
|---|---------------------------------|
| Handle  | Reinforced nylon                |
| Locking mechanism                               | 304 SS                          |

### Vent Port and Stem Extension Options

### **Vented Valves**

Pressure rating for vented valves is 500 psig (34.4 bar).

#### 2-Way, Straight-Pattern Valves

When the valve is closed, the downstream port vents to atmosphere through a vent hole in the side of the valve body.

#### 2-Way, Angle-Pattern and 3-Way Valves

When the valve is closed, the bottom port vents to atmosphere through a vent hole in the side of the valve body.

#### **Ordering Information**

To order a vented valve, insert **V** into the valve ordering number.

Example: SS-43GVS4 B-43VS4

#### ▲ Warning: Cross-vent flow may occur in vented valves.

To eliminate cross-vent flow, specify a smaller ball orifice. Add a designator from the table below to the valve ordering number.

| Valve<br>Series                           | Orifice<br>in. (mm) | Designator |
|---|---------------------|------------|
| 41G, 41GX, 41, 41X,<br>42G, 42GX, 42, 42X | 0.040 (1.02)        | -040       |
| 43G, 43GX, 43, 43X,<br>44, 44X, 45, 45X   | 0.049 (1.24)        | -049       |
| 45, 45X                                   | 0.093 (2.36)        | -093       |

Examples: SS-41GVS1**-040** B-42VS4**-040** 

### Welded Vent Port Connections

Stainless steel vented valves are available with a Swagelok tube fitting or a tube stub welded to the vent port. See the table below.

#### 40G Series Ordering Information

To order a 40G series vented valve with a welded vent port connection, add the connection designator to the vented valve ordering number.

Swagelok Tube Fitting Connection Welded to Vent Port

| Vent Port<br>Connection | Size                        | Designator          |
|-------------------------|-----------------------------|---------------------|
| Fractional              | 1/8 in.                     | -WVS2               |
| Swagelok tube           | 1/4 in.                     | -WVS4               |
| fitting                 | 3/8 in.                     | -WVS61              |
| Metric                  | 3 mm                        | -WVS3M              |
| Swagelok tube           | 6 mm                        | -WVS6M              |
| fitting                 | 8 mm                        | -WVS8M <sup>①</sup> |
| Fractional tube stub    | 1/4 	imes 0.049, 2 in. long | -WV4T49-2           |
| Metric<br>tube stub     | 6	imes 1.0,<br>50 mm long   | -WV6MT10-50M        |

1 Available for 43G series valves only.

Example: SS-43GVS4-WVS4

#### **40 Series Ordering Information**

To order a 40 series vented valve with welded vent port connection, contact your authorized Swagelok representative.

### **Stem Extensions (Manual Valves)**

Standard lengths are 2, 4, and 6 in.

#### **Factory Assembled**

To order a factory-assembled stem extension, add the stem extension designator to the valve ordering number

| Stem Extension<br>Length, in. (mm) | Stem Extension<br>Designator |
|------------------------------------|------------------------------|
| 2 (50.8)                           | -SE2                         |
| 4 (102)                            | -SE4                         |
| 6 (152)                            | -SE6                         |

Examples: SS-43GS4-SE2 SS-44S6-SE4

#### Kits for Field Assembly

To order a stem extension kit for field assembly, add a dash and the stem extension length (2, 4, 6) in inches to the kit basic ordering number.

| Valve<br>Series | Stem Extension Kit<br>Basic Ordering Number |
|-----------------|---|
| 41G, 42G        | MS-SE-42G                                   |
| 43G             | MS-SE-43G                                   |
| 41, 42          | MS-SE-42                                    |
| 43              | MS-SE-43                                    |
| 44              | MS-SE-44                                    |
| 45              | MS-SE-45                                    |

Examples: MS-SE-42G-2" MS-SE-44-4"

### Accessories

#### **Directional Name Plates**

- Indicate the direction of flow.
- Available for all 40G series and 40 series valves.
- Matte surface accepts ink or labels.

To order, add **-WN1** (blank nameplate) or **-WN2** (marked nameplate) to the valve ordering number.

Examples: SS-43GS4-WN1 B-42VS4-WN2

Directional name plate kits are also available. Contact your authorized Swagelok representative.

### **Pneumatic Actuators**

Swagelok rack and pinion pneumatic actuators are compact, lightweight, and easily mountable. The actuators are available in spring-return and doubleacting modes. Straight, angle-pattern, 4-way, and 3-way valves with **H** and **L** flow paths require 90° actuation; all other 3-way valves require 180° actuation.

For technical data, including materials of construction, air displacement, and weight, see the *Swagelok Ball Valve Actuation Options* catalog, MS-02-343.

▲ Caution: Actuated assemblies must be properly aligned and supported. Improper alignment or inadequate support of the actuated assembly may result in leakage or premature valve failure.

### **Pressure-Temperature Ratings**

|                     | Actuator              | Temperature               |                    | Actuator<br>, psig (bar)  |
|---------------------|-----------------------|---------------------------|--------------------|---------------------------|
| Actuator<br>Service | Service<br>Designator | Range<br>°F (°C)          | At 100°F<br>(37°C) | At Maximum<br>Temperature |
| Standard            | _                     | -20 to 200<br>(-28 to 93) |                    | 165 (11.3)                |
| High<br>temperature | HT                    | (-17 to 204)              |                    | 100 (6.8)                 |
| Low<br>temperature  | LT                    | -40 to 200<br>(-40 to 93) | 200 (13.7)         | 165 (11.3)                |
| Nonfluorocarbon     | NF                    | -20 to 200<br>(-28 to 93) |                    | 165 (11.3)                |

### Actuator Pressure at Maximum System Pressure

Based on valve performance using pressurized air or nitrogen.

#### 40G Series and 40 Series

|                            |           |                   |          | Actuatio    | n Modes      |           |

X designates switching (3-way) valve; Y designates crossover (4-way) valve.

### **Ordering Information**

Factory-Assembled Valves with Actuators Typical Ordering Number

#### B Actuator Model

Based on valve series, select actuator designator. See Actuator Pressure at Maximum System Pressure table, page 16.

- -31 = 90° actuation
- -33 = 90° actuation
- -51 = 180° actuation
- -53 = 180° actuation

#### **C** Actuation Mode

- C = Spring return, normally closed
- **D** = Double acting
- **O** = Spring return, normally open
- **S** = Spring return, 3-way and
  - 4-way valves

#### **D** Actuator Service

- HT = High temperature
- LT = Low temperature
- NF = Nonfluorocarbon
- None = Standard

For dual-mounted assemblies (two valves mounted to one actuator), add **DM** to the ordering number. Example: SS-43GS4-31D**DM** 

See next page for Kits for Field Assembly.

#### **Pneumatic Actuators**

#### **Ordering Information**

#### Kits for Field Assembly

Order one actuator kit and one mounting bracket kit for each valve.

Actuator Kit Typical Ordering Number

#### A Actuator Model

Based on valve series, select actuator model. See **Dimensions** table, page 17.

- **31** = 90° actuation
- 33 = 90° actuation
- 51 = 180° actuation
- 53 = 180° actuation

#### **Mounting Bracket Kits**

Mounting bracket kits contain:

- 316 stainless steel mounting bracket
- 420 stainless steel actuator roll pin
- Coupling
  - 40G series—304 stainless steel
  - 40 series—carbon steel
- Coupling pin
  - 40G series—S17400 stainless steel
  - 40 series—carbon steel
- Lock nut
  - 40G series—18-8 stainless steel
  - 40 series—carbon steel
- Four 18-8 stainless steel socket head cap screws (kit SS-MS-41G for 41G, 42G, 41GX, and 42GX series only)
- instructions.

#### B Actuation Mode

**DA** = Double acting **SR** = Spring return

#### Mounting Bracket Kit Ordering Actuator Valve Series<sup>①</sup> Model Number 41G, 42G 31 (90°) SS-MB-41G<sup>2</sup> 41GX, 42GX 51 (180°) SS-MB-41G<sup>2</sup> 31 (90°) SS-MB-43G 43G SS-MB-43G-133 33 (90°) SS-MB-43G 51 (180°) 43GX 53 (180°) SS-MB-43G-133 41, 42 31 (90°) MS-MB-41<sup>2</sup> 41X, 42X 51 (180°) MS-MB-41<sup>2</sup> MS-MB-43 31 (90°) 43 MS-MB-43-133 33 (90°) 51 (180°) MS-MB-43 43X 53 (180°) MS-MB-43-133 MS-MB-43Y 31 (90°) 43Y MS-MB-43Y-133 33 (90°) 44 33 (90°) MS-MB-44<sup>3</sup> MS-MB-44<sup>3</sup> 44X 53 (180°) 45 33 (90°) MS-MB-45 45X 53 (180°) MS-MB-45 45Y 33 (90°) MS-MB-45Y

 X designates switching (3-way) valve; Y designates crossover (4-way) valve.

- ② 42G series and 42 series valves with VCO or VCR end connections mounted to a Swagelok pneumatic actuator are only available factory assembled.
- ③ 44 series valves with VCR end connections require kit **MS-MB-44-VCR.**

#### C Actuator Service

- -HT = High temperature -LT = Low temperature -NF = Nonfluorocarbon
- None = Standard

#### **Coupling Kits**

Coupling kits enable replacement of 41, 42, or 43 series valves mounted to Swagelok pneumatic actuators with equivalent 41G, 42G, or 43G series valves. Coupling kits contain:

- 304 stainless steel coupling
- S17400 stainless steel coupling pin
- 18-8 stainless steel lock nut
- instructions.

| Valve<br>Series <sup>①</sup> | Actuator<br>Model | Coupling Kit<br>Ordering<br>Number |
|------------------------------|-------------------|------------------------------------|
| 41G, 42G                     | 31 (90°)          | 304-5K-41G-131                     |
| 41GX, 42GX                   | 51 (180°)         | 304-5K-41G-131                     |
| 43G                          | 31 (90°)          | 304-5K-43G-131                     |
| 43G                          | 33 (90°)          | 304-5K-43G-133                     |
| 43GX                         | 51 (180°)         | 304-5K-43G-131                     |
| 4367                         | 53 (180°)         | 304-5K-43G-133                     |

 X designates switching (3-way) valve; Y designates crossover (4-way) valve.

### **ISO 5211-Compliant Pneumatic Actuators**

These Swagelok rack and pinion pneumatic actuators are ISO 5211 compliant and are suitable for general applications. They are available in spring-return and double-acting modes. Straight, angle-pattern, and 3-way valves with **H** and **L** flow paths require 90° actuation; all other 3-way valves require 180° actuation.

For technical data, including actuator materials of construction and weight, see the *Swagelok Ball Valve Actuation Options* catalog, MS-02-343.

For additional information on selecting and sizing ISO 5211-compliant actuators, see the Actuated Ball Valve Selection Guide—ISO 5211-Compliant Actuator Mounting Bracket Kits, MS-02-136.

### Certifications

Factory-assembled valve assemblies with ISO 5211-compliant actuators are available with ATEX conformity on request at the time of order quotation. ATEX certification is not available for field assemblies.

▲ Caution: Actuated assemblies must be properly aligned and supported. Improper alignment or inadequate support of the actuated assembly may result in leakage or premature valve failure.

### **Pressure-Temperature Ratings**

Maximum actuator pressure is 116 psig (8.0 bar). See **Minimum Actuator Pressure** table below for minimum actuator pressures.

| Actuator<br>Service | Actuator<br>Service<br>Designator | Temperature Range<br>°F (°C) |
|---------------------|-----------------------------------|------------------------------|
| Standard            | —                                 | -40 to 176 (-40 to 80)       |
| High temperature    | HT                                | 5 to 302 (–15 to 150)        |

### **Minimum Actuator Pressure**

① X designates switching (3-way) valve.

2 3-way valves with H and L flow paths: -A15S3

3 3-way valves with H and L flow paths: -A30S4

See next page for Dimensions and Ordering Information.

### **ISO 5211-Compliant Pneumatic Actuators**

#### **Ordering Information**

Factory-Assembled Valves with Actuators Typical Ordering Number

A Valve Ordering Number

#### B Actuator Model

Based on valve series, actuation mode, and packing material, select actuator designator. See **Minimum Actuator Pressure** table, page 19.

#### C Actuator Service

**HT** = High temperature **None** = Standard

#### Kits for Field Assembly

Order one actuator kit and one mounting bracket kit for each valve.

#### **Actuator Kit Typical Ordering Number**

#### Actuator Model

**A15** = A15

**A30** = A30

**A60** = A60

Based on valve series and packing material, select actuator designator. See **Minimum Actuator Pressure** table, page 19. **A10** = A10

#### **DA** = Double acting (2-way valves)

B Actuation Mode

- **XDA** = Double acting (3-way valves)
  - **3** = Spring return (41G, 42G, 43G, 41, 42, 43 series 2-way valves with A15 and A30 actuators)
  - 4 = Spring return (41G, 41 series 2-way valves with A10 actuator; 44, 45 series 2-way valves)

C Coupling Drive Type DIN

Actuator Service
 -HT = High temperature
 None = Standard

For field assembly to ISO 5211-compliant actuators, 40G series and 40 series valves must contain a two-flat, K-style stem. K-style stems are standard for all 40G series valves and for many 44 and 45 series valves, but are optional for 41, 42, and 43 series valves. For more information, contact your Swagelok sales and service representative.

To order a valve with a two-flat, K-style stem and without a handle, if they are not standard, add -K-NH to the valve ordering number.

Example: B-43S4-K-NH

#### **Mounting Bracket Kits**

Swagelok ISO 5211 mounting bracket kits contain:

- 316 stainless steel mounting bracket
- Four A4 stainless steel socket head cap screws (A4 is approximately equivalent to 316 SS)
- Coupling
  - 40G series—powdered metal 300 series stainless steel
  - 40 series—316 stainless steel
- A4 stainless steel set screw
- Instructions.

Swagelok

| Valve Series $^{(1)}$   | Mounting Bracket Kit<br>Ordering Number |
|-------------------------|---|
| 41G, 41GX,<br>42G, 42GX | SS-MB-41G-F04-11DIN-M <sup>2</sup>      |

| 45, 45X                 | SS-MB-45-F05-14DIN-M                    |

① X designates switching (3-way) valve.

② 42G series and 42 series valves with VCO or VCR end connections mounted to a Swagelok ISO 5211-compliant pneumatic actuator are only available factory assembled.

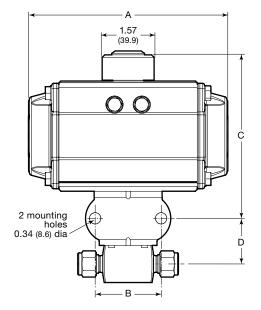

#### **Couplings and Set Screws**

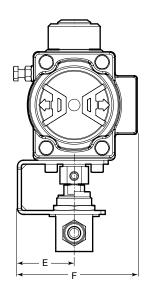

Replacement of 41, 42, or 43 series valves mounted to ISO 5211-compliant pneumatic actuators with equivalent 41G, 42G, or 43G series valves requires new couplings and set screws. To order, contact your authorized Swagelok representative.

### **ISO 5211-Compliant Pneumatic Actuators**

### Dimensions

Dimensions, in inches (millimeters), are for reference only and are subject to change.

| Valve                   | Actuator   | Dimensions, in. (mm) |             |            |             |             |             |
|-------------------------|------------|----------------------|-------------|------------|-------------|-------------|-------------|
| Series                  | Model      | А                    | В           | С          | D           | Е           | F           |
| 41G, 42G,               | A10 (90°)  | 4.65 (118)           | 2.00 (50.8) | 4.06 (103) | 1.02 (25.9) | 1.44 (36.6) | 2.84 (72.1) |
| 41, 42                  | A15 (90°)  | 5.33 (135)           | 2.00 (50.8) | 4.18 (106) | 1.02 (25.9) | 1.44 (36.6) | 3.09 (78.5) |

| 400 40                  | A10 (90°)  | 4.65 (118)           | 2.00 (50.8) | 4.05 (103) | 1.10 (27.9) | 1.44 (36.6) | 2.84 (72.1) |
| 43G, 43                 | A15 (90°)  | 5.33 (135)           | 2.00 (50.8) | 4.16 (106) | 1.10 (27.9) | 1.44 (36.6) | 3.09 (78.5) |
| 43GX, 43X               | A15 (180°) | 7.55 (192)           | 2.00 (50.8) | 4.16 (106) | 1.10 (27.9) | 1.44 (36.6) | 3.09 (78.5) |
| 44                      | A10 (90°)  | 4.65 (118)           | 2.00 (50.8) | 4.21 (107) | 1.38 (35.1) | 1.44 (36.6) | 2.84 (72.1) |
| 44                      | A15 (90°)  | 5.33 (135)           | 2.00 (50.8) | 4.32 (110) | 1.38 (35.1) | 1.44 (36.6) | 3.09 (78.5) |
| 44X                     | A15 (180°) | 7.55 (192)           | 2.00 (50.8) | 4.32 (110) | 1.38 (35.1) | 1.44 (36.6) | 3.09 (78.5) |
| 45                      | A30 (90°)  | 6.04 (153)           | 2.19 (55.6) | 5.05 (128) | 1.61 (40.9) | 1.72 (43.7) | 3.63 (92.2) |
| 45                      | A60 (90°)  | 8.01 (203)           | 2.19 (55.6) | 5.73 (146) | 1.61 (40.9) | 1.72 (43.7) | 3.71 (94.2) |
| 45X                     | A30 (180°) | 8.50 (216)           | 2.19 (55.6) | 5.05 (128) | 1.61 (40.9) | 1.72 (43.7) | 3.63 (92.2) |

① X designates switching (3-way) valve.

### **Options for ISO 5211-Compliant and Swagelok Pneumatic Actuators**

Swagelok offers a range of accessories to enhance instrumentation and process ball valve performance and control, including solenoid valves, limit switches, and position sensors. Factory assemblies and kits for field assembly are available.

For more information, see the Swagelok Ball Valve Actuation Options catalog, MS-02-343.

■ Valve with No Handle Stop and No Handle (40G Series)

provides increased accessibility to packing bolt.

To order, add **-NHS** to the valve ordering number.

Example: SS-43GS4-NHS

For more information on actuator options, contact your authorized Swagelok representative.

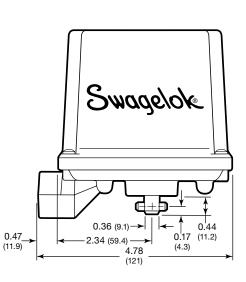

### **Electric Actuators**

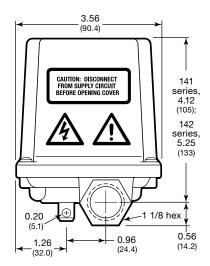

Swagelok electric actuators can be used to control the position of Swagelok instrumentation ball valves; alternatingand direct-current models are available. An electrical signal is used to change valve position from remote locations. Integral limit switches provide an output signal of the valve position, even between positions. The drive shaft of these actuators rotates in one direction.

#### **Dimensions**

Dimensions, in inches (millimeters), are for reference only and are subject to change.

See the Swagelok *Electric Actuators* catalog, MS-01-35, for features, testing, materials of construction, technical data, and dimensions.

Electric actuators are not available on angle-pattern valves and vented valves.

#### ▲ DO NOT USE THESE ACTUATORS ON VENTED BALL VALVES. THE DRIVE SHAFT OF THESE ACTUATORS ROTATES IN ONE DIRECTION.

### **Ordering Information**

#### Factory-Assembled Valve and Actuator

1. Choose the actuator series that corresponds with the selected valve series.

| Valve Series <sup>①</sup>                       | Actuator Series |
|---|-----------------|
| 41G, 41GX,<br>42G, 42GX,<br>41, 41X,<br>42, 42X | 141             |
| 43G, 43GX,<br>43, 43X,<br>44, 44X               | 142             |

① X designates switching (3-way) valve.

Example: A 41G series valve requires a 141 series actuator.

2. See the **Actuator Specifications** table in the Swagelok *Electric Actuators* catalog, MS-01-35. Based on the actuator series, select the preferred voltage/frequency/ conduit connection for the required actuator.

#### Example: 120 V (ac)/60 Hz/1/2 in. NPT

3. Identify the valve flow path.

Example: 2-way

4. Add the actuator designator to the valve ordering number. Example: SS-41GS2-41AC

#### Actuator Kits for Field Assembly

Order one actuator kit and one mounting bracket kit for each valve.

1. Identify the valve series.

▲ Not CE marked.

- 2. Follow steps 1 through 3 in the **Factory-Assembled Valve** and **Actuator** ordering information.
- Replace the dash in the actuator designator with MS-1.
  Example: MS-141AC
- Select the mounting bracket kit ordering number from the table below. Kits include mounting brackets, cap screws, coupling, and instructions.

| Valve<br>Series <sup>①</sup> | Mounting Bracket Kit<br>Ordering Number |
|------------------------------|---|
| 41G, 41GX,<br>42G, 42GX      | SS-MB-41G <sup>2</sup>                  |
| 43G, 43GX                    | SS-MB-43G                               |
| 41, 41X,<br>42, 42X          | MS-MB-41 <sup>®</sup>                   |
| 43, 43X                      | MS-MB-43                                |
| 44, 44X                      | MS-MB-44-131                            |

① X designates switching (3-way) valve.

② 42G series and 42 series valves with VCO or VCR end connections mounted to a Swagelok electric actuator are only available factory assembled.

### **Process Options**

### **Production Tests**

To specify an optional production test in place of the standard testing, add a designator from the table at right to the valve ordering number.

Examples: SS-43GS4**-PT** B-43S4**-PT** 

| Test<br>Designator | Production Test<br>Description   |  |
|--------------------|--|--|
| -PT                | Valves are tested with nitrogen at a customer-<br>specified pressure. Test pressure must not exceed<br>the rated pressure of the valve. Maximum allowable<br>leak rate depends on test pressure. |  |
| 14/00              | 40G series—valves are hydrostatically tested with deionized water at 1.5 times the rated pressure of the valve. No visible leakage is permitted.   |  |
| -W20               | 40 series—valves are hydrostatically tested with<br>deionized water at the rated pressure of the valve.<br>No visible leakage is permitted.  |  |
| -W31               | Valves are helium leak tested at a pressure of $1 \times 10^{-4}$ Torr. The maximum allowable leak rate is $4 \times 10^{-9}$ std cm <sup>3</sup> /s.  |  |

### **Special Cleaning and Packaging (SC-11)**

40G series and 40 series valves are available with optional cleaning and packaging in accordance with Swagelok *Special Cleaning and Packaging (SC-11)*, MS-06-63, to ensure compliance with product cleanliness requirements stated in ASTM G93 Level C.

#### 40G Series

Special cleaning of 40G series valves changes the low-temperature rating from -65°F (-53°C) to -30°F (-34°C).

#### 40 Series

Special cleaning of 40 series valves does not affect the temperature rating.

#### **Ordering Information**

To order, add -SC11 to the valve ordering number.

Examples: SS-43GS4-SC11 B-43S4-SC11

#### **Oxygen Service Hazards**

For more information about hazards and risks of oxygenenriched systems, see the Swagelok *Oxygen System Safety* technical report, MS-06-13.

### **Valves Assembled Without Lubrication**

40G series and 40 series ball valves assembled without lubrication are cleaned and packaged in accordance with Swagelok Special Cleaning and Packaging (SC-11), MS-06-63.

#### 40G Series

40G series valves assembled without lubrication have a pressure rating of 500 psig (34.4 bar).

#### 40 Series

40 series valves assembled without lubrication have a pressure rating of 200 psig (13.7 bar). Brass valves are assembled with stainless steel rings, discs, and ball stem.

#### **Ordering Information**

To order, add **-1466** to the valve ordering number. Examples: SS-43GS4**-1466** B-43S4**-1466** 

▲ 44 and 45 series valves assembled without lubrication have a significantly higher actuation torque than valves assembled with lubrication.

### **Service Options**

#### **Sour Gas Service**

40G series and 40 series valves for sour gas service are available. Materials are selected in accordance with NACE MR0175/ISO 15156.

To order, add -SG to the valve ordering number.

Examples: SS-42GF2**-SG** SS-44F4**-SG** 

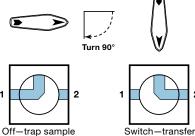

### **Flow Path Options**

### **Two-Port Paths**

#### L Flow Path

Angle porting can transfer a sample from port 1 to port 2.

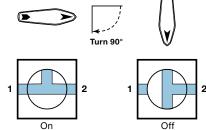

from port 1

1

| 45              | 0.281 (7.14)        | 0.0473 (0.775)   | 1500 (103)                       |                         |

### **HL Flow Path**

Tee porting is used for inline, on-off service when fluid must not be trapped in the stem cavity. System fluid can be evacuated through port 2 when the valve is in the off position.

| Valve<br>Series | Orifice<br>in. (mm) | Pressure<br>Rating<br>psig (bar) | Flow Path<br>Designator |
|-----------------|---------------------|----------------------------------|-------------------------|
| 41G, 41         | 0.093 (2.36)        |                                  |                         |
| 42G, 42         | 0.125 (3.18)        | 2500 (172)                       |                         |
| 43G, 43         | 0.187 (4.75)        |                                  | HL                      |
| 44              | 0.281 (7.14)        | 1500 (103)                       |                         |
| 45              | 0.406 (10.3)        | 1500 (103)                       |                         |

#### ▲ Warning: Cross-port flow may occur in two- and three-port valves with L and HL flow paths and orifices larger than 0.049 in. (1.24 mm).

To eliminate cross-port flow, specify a smaller orifice. See Ordering Information, page 27.

### **Three-Port Paths**

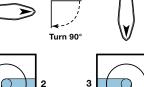

### L Flow Path

2

sample to port 2

Angle porting allows switching of port 1 to port 2 or port 1 to port 3 when the handle is rotated 90°. THERE IS NO OFF POSITION.

### Flow Path Options (40 Series)

1

1

### **Four-Port Paths**

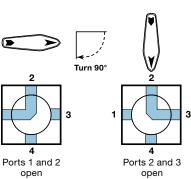

**HL Flow Path** 

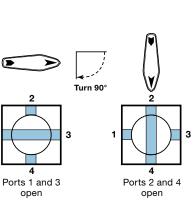

#### L Flow Path

Angle porting provided with four ports and 360° handle rotation; two adjacent ports are connected and the other two are closed.

#### H Flow Path

Straight-pattern porting can switch two streams on and off alternately or transfer a sample from ports 1 and 3 to ports 2 and 4.

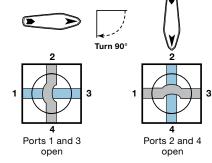

6  $\geq$ Turn 90 Turn 90° з 1 3 4 4 4 Ports 1, 2, and Ports 2, 3, and 4 Ports 1, 3, and 3 open open 4 open

Tee porting provided with four ports and 360° rotation of the handle; three adjacent ports can be connected at the same time and the remaining port is off.

#### HH Flow Path

Crossover ports allow continuous flow through ports 1 and 3 and continuous flow through ports 2 and 4.

| Valve<br>Series | Orifice<br>in. (mm)                        | Pressure<br>Rating<br>psig (bar) | Flow Path<br>Designator    |
|-----------------|--|----------------------------------|----------------------------|
| 43Y             | 0.062 (1.57)                               | 2500 (172)                       | L = Angle<br>H = Straight  |

# ▲ Warning: Cross-port flow may occur in four-port valves.

To eliminate cross-port flow, specify a smaller orifice. See **Ordering Information**, page 27. Flow Path Options (40 Series)

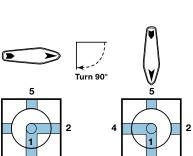

#### **Five-Port Paths**

### L Flow Path

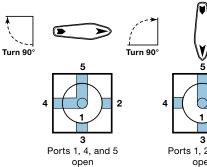

Angle porting with a leg to the bottom port (port 1) allows two adjacent side ports to be open and the remaining two side ports to be closed. Switching can be done in 90° increments with 360° handle rotation.

3 Ports 1, 2, and 3 open

4

Ports 1, 3, and 4

Ports 1, 2, and 5 open

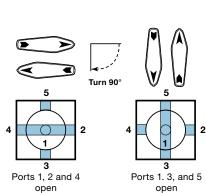

2

3

open

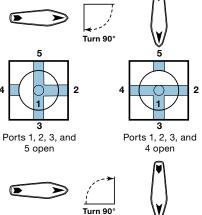

### **H Flow Path**

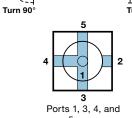

Tee porting in the ball with a leg to the bottom port (port 1) allows selection of ports 2 and 4 or 3 and 5 with 360° handle rotation.

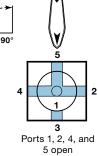

#### Tee porting in the ball with a leg to the bottom port (port 1) permits three side ports to be open while the fourth side port is closed. Switching can be done in 90° increments with 360° handle rotation.

#### ▲ Warning: Cross-port flow may occur in five-port valves.

To eliminate cross-port flow, specify a smaller orifice. See Ordering Information, page 27.

### **Flow Path Options**

#### **Ordering Information**

#### 40G Series

Two- and three-port flow paths are available. Insert a flow path designator into a 40G series ordering number as shown.

Examples: SS-41GLS2 for a two-port 41G series valve with L flow path

SS-43GX**HL**S4 for a three-port 43G series valve with **HL** flow path

#### 40 Series

Two-and three-port paths are available for brass and alloy 400 valves. Four-and five-port paths are available for stainless steel, brass, and alloy 400 valves.

Add a material designator and insert a flow path designator into a 40 series basic ordering number as shown.

Examples: **B**-41LS2 for a brass two-port 41 series valve with L flow path

**SS**-44X**H**S6 for a stainless steel three-port 44 series valve with **H** flow path

## ▲ Warning: Cross-port flow may occur in some sizes and flow paths.

To eliminate cross-port flow, specify an orifice of:

0.049 in. for 41G, 42G, 43G, 41, 42, and 43 series valves whose standard orifice is larger than 0.049 in. (1.24 mm).

Examples: SS-43GHLS4-049 B-43XLS4-049

0.093 in. for 44 and 45 series valves whose standard orifice is larger than 0.093 in. (2.36 mm).

Examples: SS-44LS6-093 SS-45YHS8-093

| Material  | Valve Series   | Designator |
|-----------|--|------------|
| 316 SS    | 43Y, 43Z,<br>44, 44X,<br>45, 45X, 45Y, 45Z                               | SS         |
| Alloy 400 | 41, 41X, 42, 42X,<br>43, 43X, 43Y, 43Z,<br>44, 44X,<br>45, 45X, 45Y, 45Z | М          |
| Brass     | 41, 41X, 42, 42X,<br>43, 43X, 43Y, 43Z,<br>44, 44X, 45,<br>45X, 45Y, 45Z | В          |

### **Ordering Multiple Options and Accessories**

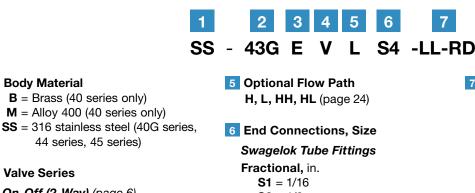

Swagelok 40G series and 40 series instrumentation ball valves are available with a wide variety of options and accessories that enable valve configurations customized to meet specific system requirements. Just insert or add designators as shown.

### Typical Ordering Number

**B** = Brass (40 series only)

 $\mathbf{M} = \text{Alloy 400}$  (40 series only)

44 series, 45 series)

On-Off (2-Way) (page 6) 41G, 42G, 43G, 41, 42, 43, 44, 45

1 Body Material

2 Valve Series

Switching (3-Way) (page 8) 41GX, 42GX, 43GX, 41X, 42X, 43X, 44X, 45X

Switching (5-Way) (page 10) 43Z, 45Z

Switching (7-Way) (page 10) 43Z6

Crossover (4-Way) (page 11) 43Y, 45Y

Crossover (6-Way) (page 11) 43Y6

#### 3 Packing Material

40G Series **E** = UHMWPE None = modified PTFE

40 Series None = PTFE

#### 40T and 40E Series

**E** = Live-loaded UHMWPE (41, 42, 43 series sizes only) **T** = Live-loaded PFA (all sizes)

#### 4 Optional Vent Port

**V** = Vent port (page 15)

**S2** = 1/8 **S4** = 1/4 **S6** = 3/8 **S8** = 1/2 **S12** = 3/4 Metric, mm **S3MM** = 3 **S6MM** = 6 **S8MM** = 8 **S10MM** = 10 **S12MM** = 12 Female NPT **F2** = 1/8 in. **F4** = 1/4 in. F6 = 3/8 in. **F8** = 1/2 in. Female ISO/BSP Tapered **F4RT** = 1/4 in. F6RT = 3/8 in. **F8RT** = 1/2 in. Male NPT **M4** = 1/4 in. Male NPT to Swagelok Tube Fitting **M4-S4** = 1/4 in. VCO Fittings **VCO4** = 1/4 in. Integral Male VCR Fittings **VCR4** = 1/4 in.

**VCR8** = 1/2 in.

#### 7 Options and Accessories

Add multiple designators in alphanumeric order. Not all options available for all valves. See pages cited below.

-A = Angle-pattern body (page 6)

-BL, -GR, -OG, -RD, -YW = Nylon directional handle colors (page 13)

-K, -SHD, -SH, -BKB, -NH, -NHS, -LH, -LL, -LLC = Handle options (pages 13 and 21)

-WVS2, -WVS4, . . . -WVS8M = Swagelok tube fitting vent port connections (page 15)

-WV4T49-2, -WV6MT10-50M = Tube stub vent port connections (page 15)

-SE2, -SE4, -SE6 = Stem extensions (page 15)

-WN1, -WN2 = Directional name plates (page 15)

-PT, -W20, -W31 = Production tests (page 23)

-SC11 = Special cleaning and packaging (page 23)

-1466 = No lubrication/special cleaning and packaging (page 23)

#### Safe Product Selection

When selecting a product, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

Caution: Do not mix or interchange parts with those of other manufacturers.

### Warranty Information

Swagelok products are backed by The Swagelok Limited Lifetime Warranty. For a copy, visit swagelok.com or contact your authorized Swagelok representative.
